

The background features a light gray grid. On the right side, there are several 3D geometric shapes, including rectangular blocks and a staircase-like structure, rendered in a light gray color with soft shadows. A faint blue geometric pattern is also visible on the right side.

PROJECT INTRODUCTION

CoTEACH

AI-Powered Unit & Lesson Planning Assistant

An innovative AI tool designed to transform educational planning through expert-led guidance, leveraging advanced AI to provide teachers with pedagogical support.

STATUS

Blueprint Phase v1.0

ARCHITECTURE

Expert-Led AI System

Problem & Vision: Empowering Educators

CURRENT LANDSCAPE

The Planning Paradox

Identifying the core challenges in modern curriculum design and the CoTEACH vision for a more efficient future.

80%

ADMINISTRATIVE OVERLOAD IN CURRICULUM DESIGN

THE COTEACH VISION

"CoTEACH addresses the heavy administrative burden of planning by providing streamlined, AI-powered expert guidance."

- Precision engineering for educational excellence.

Efficiency

Reducing manual documentation cycles through intelligent automation.

Expertise

Augmenting educator capabilities with high-fidelity AI frameworks.

Five Educational Expert Perspectives

PHASE 01

A deep dive into the five distinct pedagogical frameworks that form the intelligence core of the CoTEACH system.

CORE INTELLIGENCE

CoTEACH integrates five world-class educational perspectives to ensure comprehensive and inclusive learning design.

PERSPECTIVE 01

PERSPECTIVE 05

The 5-Phase CoTEACH Workflow

A step-by-step breakdown of the CoTEACH operational flow, from initialization to final document generation.

The 5-phase workflow ensures rigorous analysis and high-quality outputs through a systematic, multi-expert review process.

TECHNICAL STACK

Technical Architecture & Interface

An overview of the technical stack and user interface that powers the CoTEACH planning experience.

CoTEACH combines a user-friendly Tkinter GUI with the powerful Claude CLI agent for seamless document processing.

TKINTER GUI

CLAUDE CLI AGENT

DOCUMENT ENGINE

■ ARCHITECTURE LOGIC DIAGRAM V1.0

Key Design Principles

THE CORE MANDATE

**Strict adherence to
mandatory expert analysis
and autonomous verification
guarantees the highest
quality of educational
planning.**

CoTEACH Operational Guardrail v1.0

Operational Overview

The non-negotiable standards and operational guardrails that ensure the consistency and reliability of CoTEACH outputs.

Integrity Check

Autonomous verification of all modular components.

Systemic Reliability

Standardized planning frameworks across all phases.

● CONSISTENCY PROTOCOL ALPHA

These principles are hardcoded into the workflow logic to prevent educational drift and maintain peak precision.

Target Users & Stakeholders

Strategic Focus

Defining the primary users and stakeholders who benefit most from the CoTEACH planning ecosystem.

TECHNICAL ALIGNMENT

"Mapping educational intent to architectural precision."

CORE PHILOSOPHY

CoTEACH is specifically designed for the **rigorous requirements** of IB and international school curriculum standards.

Standard Set 01

International Baccalaureate

Standard Set 02

Global Curriculum Frameworks

COTEACH

THE FUTURE OF PEDAGOGY

Empowering Educators with AI

CoTEACH is more than a tool; it is a partner in pedagogical excellence, driving better outcomes for teachers and students alike.
